CLIENT PRICING

\$249 application fee + \$99/month thereafter + 8% approved transaction fee on payment plans only.

Includes PRE-FUNDING + Full-Service Collections for all approved patients, as well as full-service account collections. Full-Service collections include follow-up and payment rescheduling by PPS staff directly with patients on all defaulting patient accounts, including lost/stolen/expired/canceled cards. PPS does not make any changes to payment plans requested by the patient without prior consent from your clinic. PPS is a "soft" collection business. Plans with defaulting payments will follow a pre-set collection process for 2 months. If at this time payment schedule is not resolved, we will notify your clinic and recommend patient account referral to a "hard" collection agency. Clinics can choose to pass the 8% fee on to the patient via an addition to their payment plan.

There is no 8% collections fee on prefunding.

CREDIT CARD PROCESSING

All rates and fees are the lowest possible for a MOTO account to ensure the most transparent form of pricing.
